

Choke Module

The choke module contains **3 linear storage chokes**. The design and the connection technology are particularly suitable for the combination with maxon EC motors. With brushed DC motors, the chokes are used in series connection. The storage choke increases the terminal inductance. This results in a smaller current ripple in PWM-operation (pulse width modulation) and therefore less self-heating of the motor.

Technical Data per Linear Storage Choke

Electrical data

- Nominal DC current
- Inductance at I_N
- DC current resistor

$I_N = 5 \text{ A}$
 $L = 250 \mu\text{H}$
 $R_{Cu} = 60 \text{ m}\Omega$

Temperature range

Operation -25 ... 70°C

Humidity range

20 ... 75 % noncondensing

Mechanical data

- Weight: 250 g
- Dimensions:
 - Length 90 mm
 - Width 70 mm
 - Height 49.7 mm
- Mounting plate:
 - Pitch of hole for 4 screws M3 78 x 54 mm

Connections

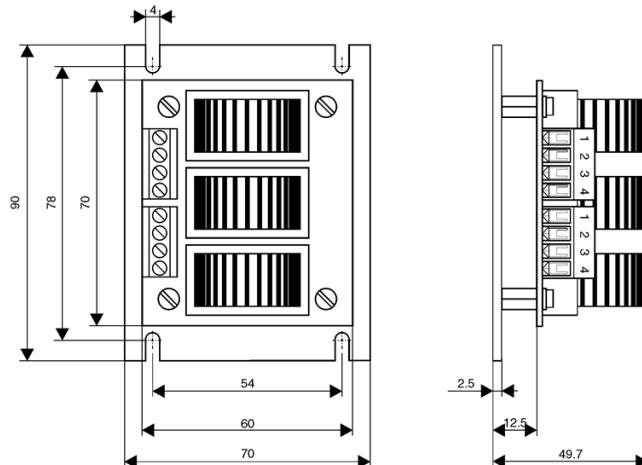

- PCB-clamps 4 poles
- Pitch 5,08 mm

suitable for cable profile

- multiple-stranded wire 0.14 - 2.5 mm²
- single wire 0.14 - 4.0 mm²

Dimension Drawing

Dimensions in [mm]

Pin assignment

Plug Input	Pin 1	Choke 1 Input	Plug Output	Pin 1	Choke 1 Output
	Pin 2	Choke 2 Input		Pin 2	Choke 2 Output
	Pin 3	Choke 3 Input		Pin 3	Choke 3 Output
	Pin 4	Shield		Pin 4	Shield

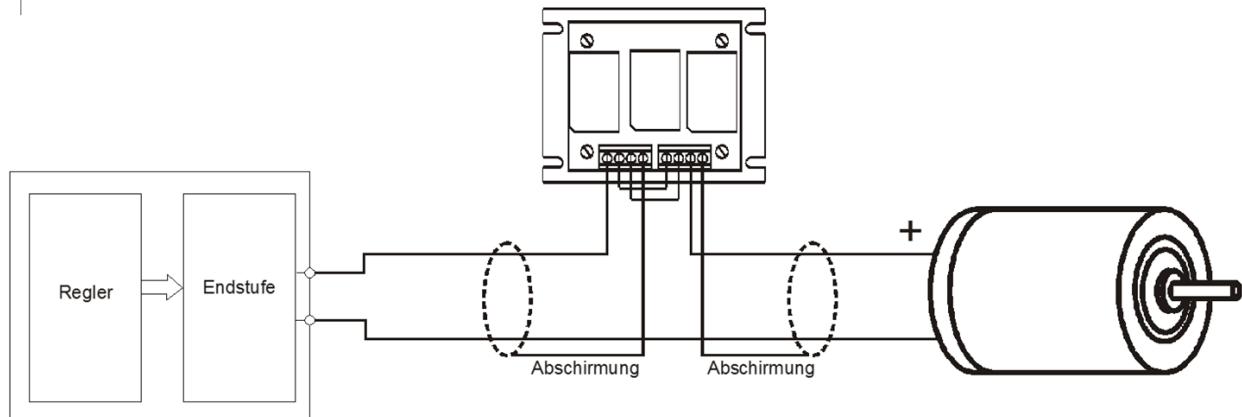

Examples

maxon EC motor

maxon DC motor

e.g.: 10 A / 125 μ H

Sample calculations

Motor type	maxon EC motor Ø32 mm	maxon DC motor RE75 mm
Order number	118891	118821
Motor data		
Max. continuous current: I_{max}	= 5 A	= 7.23 A
Terminal inductance (phase-phase): $L_{Motor(Ph-Ph)}$	= 0.03 mH	= 0.16 mH
Linear storage choke data		2 chokes parallel connected
Nominal DC current: I_N	= 5 A	= 10 A (parallel connection)
Inductance at I_N : L_{choke}	= 0.25 mH	= 0.125 mH (parallel connection)
Total inductance:	$L_{Total(Ph-Ph)} = L_{Motor(Ph-Ph)} + L_{choke} + L_{choke}$	$L_{Motor(Ph-Ph)} + L_{choke}$
	$L_{Total(Ph-Ph)} = 0.03 \text{ mH} + 0.25 \text{ mH} + 0.25 \text{ mH}$	$0.16 \text{ mH} + 0.125 \text{ mH}$
	$L_{Total(Ph-Ph)} = 0.53 \text{ mH}$	0.285 mH
Continuous Current:	$I_{max} \leq I_N = 5 \text{ A}$	$7.23 \text{ A} < 10 \text{ A}$
