

NEW

Technical drawing of the V1 and V2 versions of the 12V 100Ah battery. The drawing includes top, side, and front views for both versions. V1 is a standard battery with a 40.5mm height and 28mm width. V2 is a more complex version with a 300mm length and 43.5mm diameter. It features a 3x120-degree fan-like structure and a 20mm wide base. The drawing also shows the internal wiring and terminal connections for both versions.
